

## ( Portable /Bench Top) Hydraulic Pressure Tester

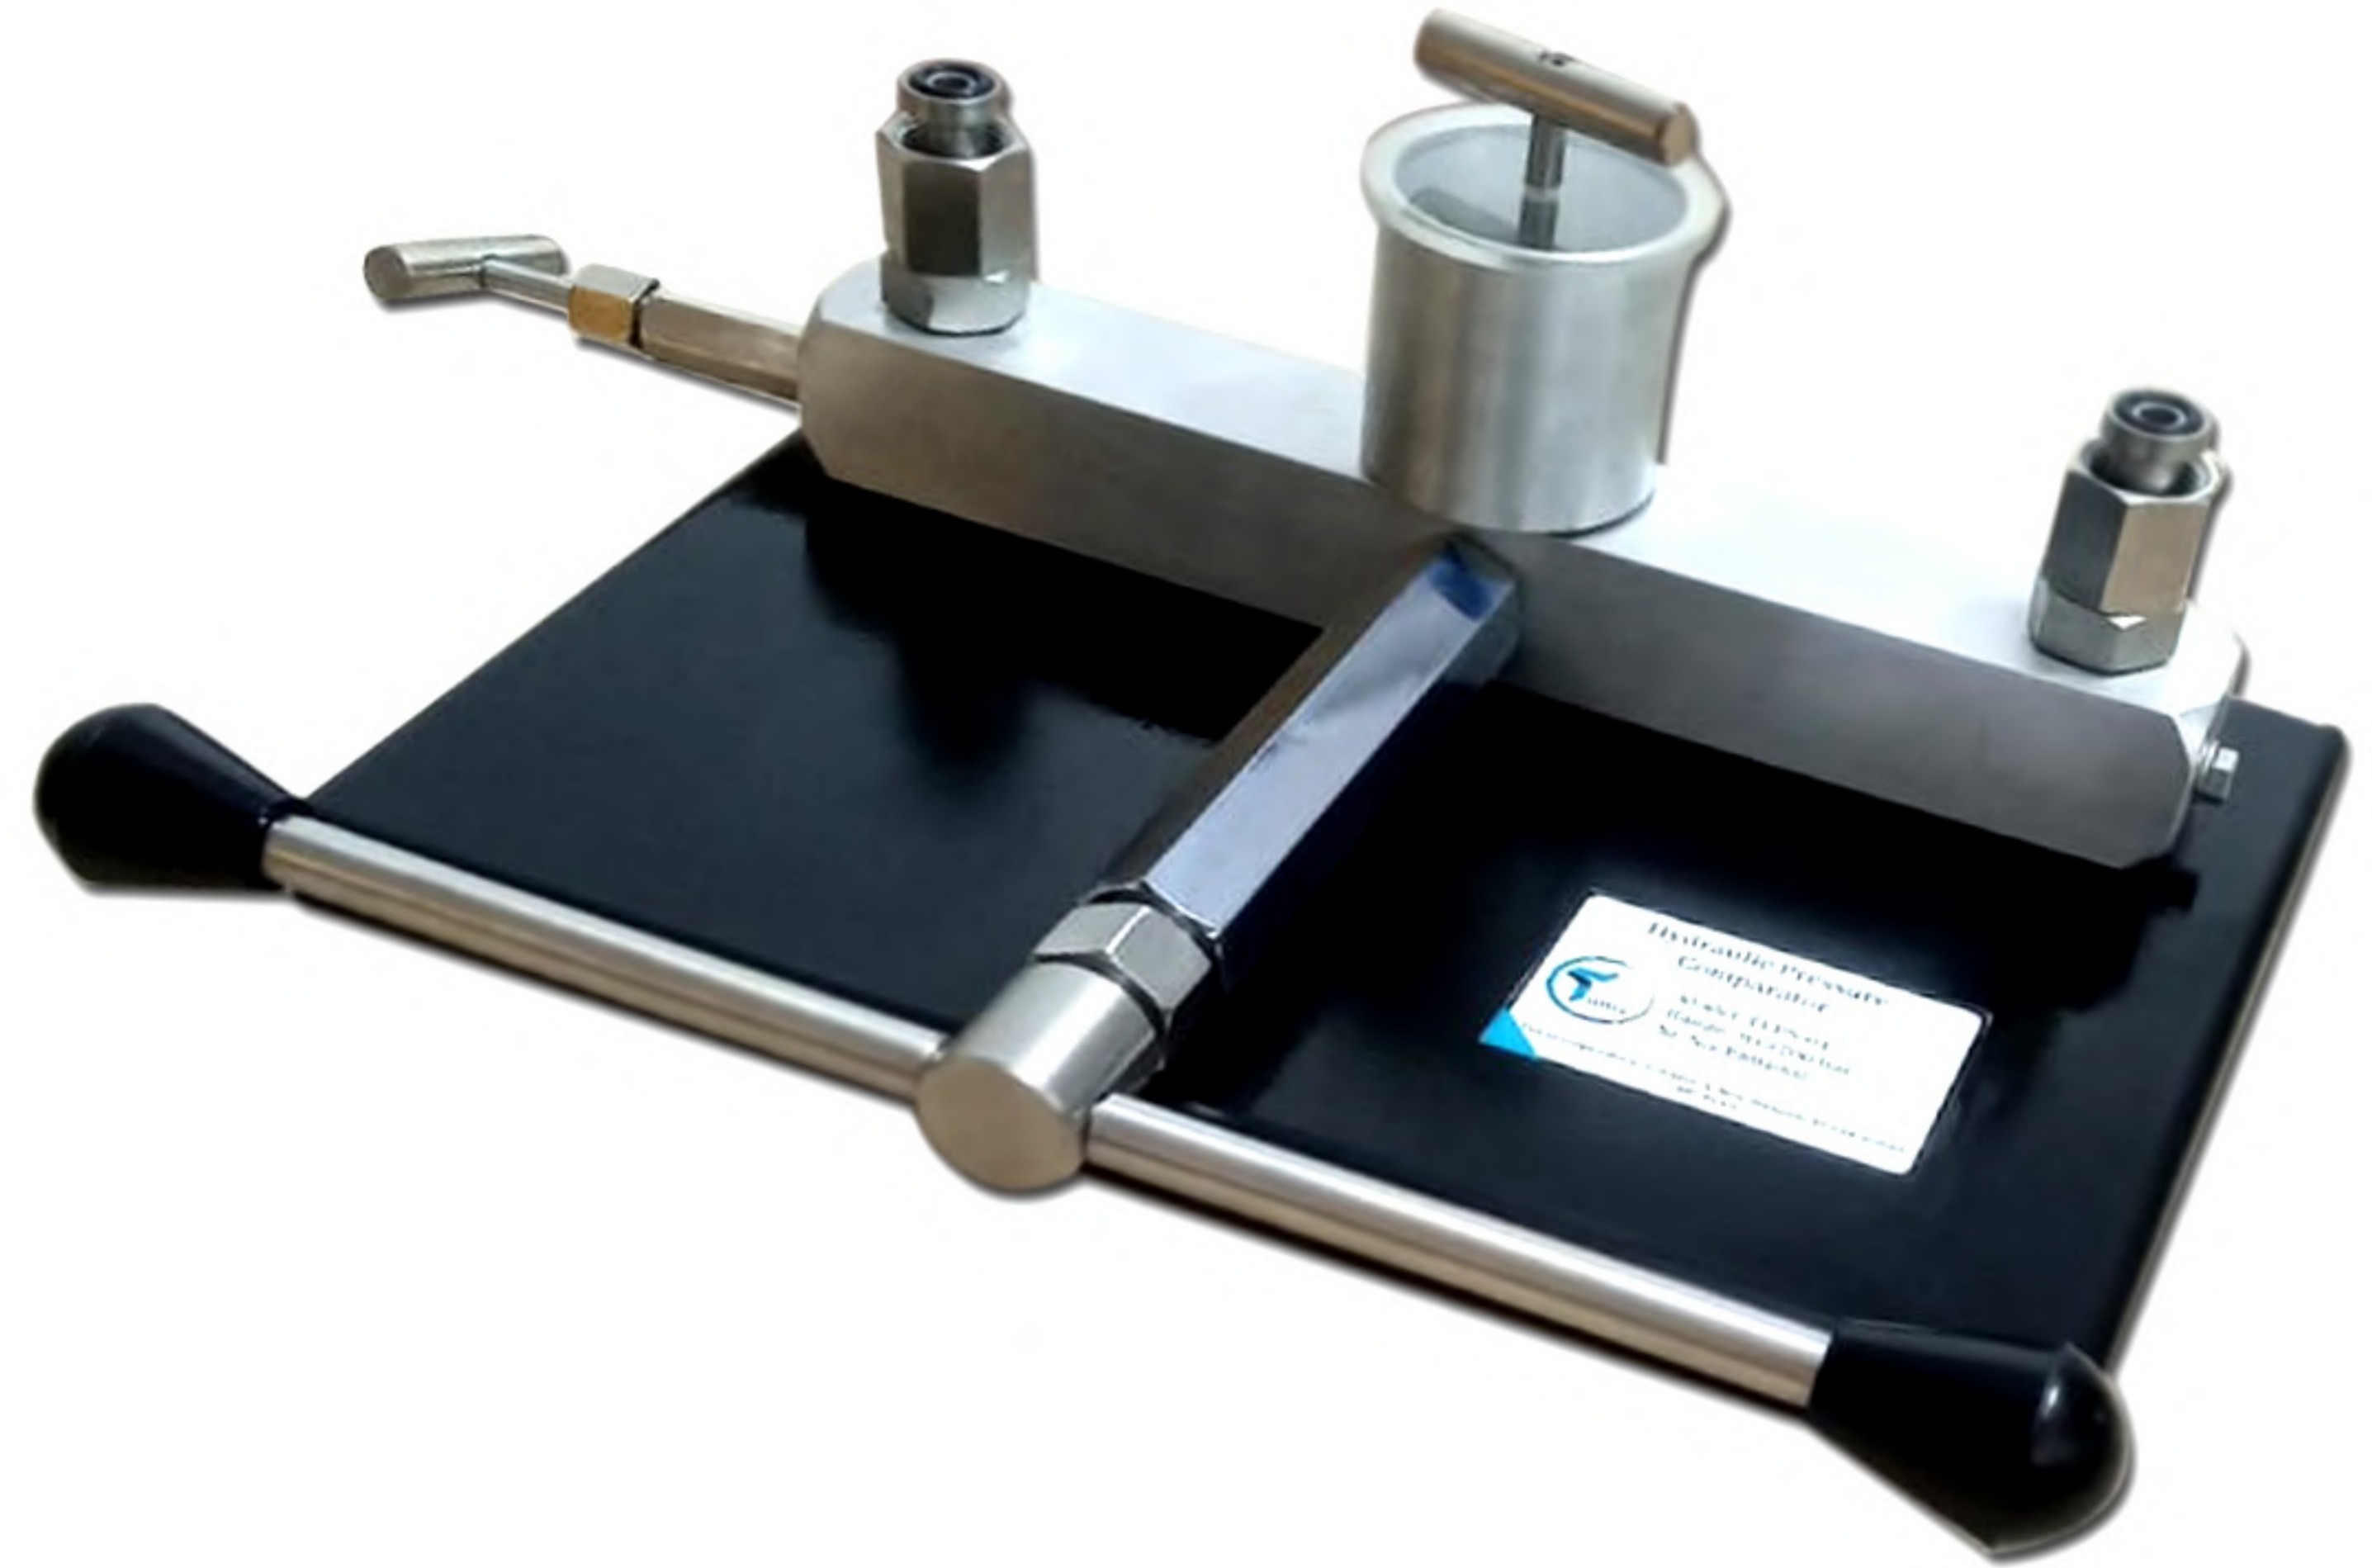

*(Pressure calibration made easy)*

Model : TEPS-04

Compact, light weight 60MPa precision pressure gauge calibrator.

### Hydraulic Pressure Tester

1. **Model:** TEPS-04
2. Compact, Light Weight, Hand Operated.
3. Pressure Range : 60MPa /600 Bar
4. Pressure / Vacuum Changeover option.
5. Generation (Range) of Pressure upto 600Bar
6. Dimension: 350x230x180mm
7. Weight : 15kg
8. Material: Stainless steel
9. Connection : M20\*1.5
- 10.: Medium : Oil
11. Pressure type : Hydraulic pressure

*Range -0.8 to 600 bar*

**Model-TEPS-04**

### Hydraulic Pressure Pump

**Model-TEPS-02**

1. **Model** - TEPS-02/03
2. Compact, Light Weight, Hand Operated.
3. Generation (Range) of Pressure upto 300Bar(Model-TEPS-03: 600 Bar).
4. Fine Adjustment Vernier to realize upto 1 mBar Resolution Sensitivity.
5. Very Low Leakage rate.
6. Flexible Hose (1 Meter) with Swivel Adaptor to connect devices under test.
7. Toggle Switch for Vacume & Pressure.
8. Pressure connection set of adoptors.
9. Weight : 1.6 Kg.
10. Legnth: 300mm.
11. Width: 170mm.

### Recommended Accessory

#### High Accuracy Reference grade

#### Digital Pressure Gauges (Model: TRPG-01)

1. Pressure Range: -1 to 1, 1.6, 2.5, 4, 6, 10, ..... 1000Bar.  
-100, -60, -40, -25, -10, ..... 100KPa.  
0-100KPa.....1000KPa(Absolutpressure).
2. Pressure accuracy: 0.2%, 0.1%, 0.05%FS.  
(Note: special accuracy options available or 0.025%FS).
